York JSNA Easier Read Summary

What is a JSNA?

JSNA means Joint Strategic Needs Assessment.

A JSNA is information that people from health and the local council collect every year about people who live in the area. All of this information then goes into a report.

The JSNA includes lots of different information like:

- How many children and young people live in the area
- How many carers and people with learning disabilities live in the area
- How long people are living for

This information is really important because it helps the council and people from health plan and buy the services that are needed to meet the needs of local people.
